

Ladder & Stepladder Inspections

Most ladder accidents occur due to human error, namely bad practice or faulty equipment. A thorough inspection regime helps to significantly reduce the accident rate

Course Overview

This course is aimed at those who need to undertake periodic inspections of ladders, stepladders and combination ladders.

Upon completion of this course, the delegate will be able to accurately inspect all aspects of ladders and stepladders, identify critical safety faults and also record the findings in accordance with statutory requirements.

Course Syllabus

- Legal Requirements and Guidance including PUWER 1998 and Working at Height 2005 Regulation
- Initial Inspection
- Asset Register
- Inspection Procedures
- Inspection Documentation
- Disposal
- Theory & Practical Tests
- INDG 455 – Safe use of ladders and stepladders
- Group exercise on inspection and hazard analysis
- Ladder standards and classifications (BSEN 131)
- Routine maintenance and repairs
- Ladders and stepladder component parts

Course type options:

Tailored

Open

frequently asked questions...
